

## PLACEMENT DATASET REPORT

	sl_no	ssc_p	hsc_p	degree_p	etest_p	mba_p	salary
mean	108	67.3034	66.3332	66.3702	72.1006	62.2782	288655
median	108	67	65	66	71	62	265000
mode	1	62	63	65	60	56.7	300000

### Mean- overall average value

Analyzing the dataset students have performed above average from 10<sup>th</sup> to degree and have performed good in their entrance test, but again their performance is dropped in their MBA. They have got average salary of 2,88,655.

### Median-middle value

There is no big difference between median and mode as median does not take outlier entrance test mark is reduced by just one mark and their salary is slightly low compared to mean due to outlier.

### Mode-repetition

In 10<sup>th</sup> students got 62 marks in repetition ,12<sup>th</sup> grade 63 marks is repeated, degree 65 marks is repeated, entrance test 60 marks is repeated, Mba 56 marks is repeated and they have got repeated salary of 3,00,000.

We can conclude they are above average performers.
